

Transportation Improvement Projects Fall 2016

Stanley Rd / Collins Rd – Project will consist of improving Stanley from Old 41 to the railroad tracks and Collins Rd from Stanley Rd to Barrett Pkwy. It will include improving the roadway, adding sidewalks and creating a round-about at the intersection of Stanley Rd and Collins Rd. The project will begin on the week of September 12th and is projected to last 12 months.

Dallas St / Watts Dr – Project will consist of improving Dallas St from Watts Dr to Main St and Watts Dr from Cobb Pkwy to Main St. It will include improving the roadway, adding sidewalks, creating a round-about at the intersection of Dallas St and Watts Dr., improving the Police Department's rear lot and building a new plaza behind for City Hall. The project will begin on the week of September 12th and is projected to last 9 months.

City-wide Road Resurfacing – There are ten roads scheduled to be resurfaced this year. Expected start date is the week of September 12th. They are listed below.
